

# Welcome to Brazeau County

## Forestry

### Industry is in Our Nature

The wide range of industries operating in Brazeau County – oil & gas, agriculture, forestry, bio energy and tourism – bring more opportunities for employment and business than ever before, making Brazeau County one of the most desirable places to live and work in Canada. When you add economic vitality to natural beauty and a healthy community, you get a place that thousands of people want to call home. And every year more people are calling Brazeau County home, settling in our region with big hopes for the future and for their families.

### Forestry

#### Business Grows Naturally Here

For decades, the abundant forests that span the borders of Brazeau County have provided the local economy with a strong backbone as lumber mills and forestry services businesses have planted their roots and continued to thrive. By diversifying products and methods - including partnering with Drayton Valley Power to provide the province an extra 10.5 megawatts of energy from burning wood waste - companies both large and small have found a sustainable way to do business in a county that's dedicated to long-term growth and prosperity for every industry and every community.

#### Old Forests, New Money

Brazeau County's forestry industry is positioned for long-term growth and now is the time for investors from around the world to take notice. We have the resources, we have the infrastructure and we have the labour force needed to ensure the continued expansion of forestry operations, making our region one of the most sought-after economic jurisdictions on the planet. Our soil is rich with opportunity.

### Quick Stats:

*"Forestry shipments from the region totaled approximately \$800 Million in 2009."*

*- Alberta Regional Economic Indicators*

The West Yellowhead Region, Brazeau County's parent region, is Alberta's top producer of forest products, as well as the province's largest lumber producer. With a value of forestry shipments from the region totalling approximately \$800 Million in 2009.

The primary forestry products are: Lumber, Oriented Strand Board (OSB), and Pulp and Paper.

Percentage of the 7.1 million cubic meters of harvested logs used for production in 2009	
Lumber	71%
Pulp and Paper	24%
OSB	6%

### Location

Established in 1988, Brazeau County is located approximately 160 kilometres southwest of Edmonton and is home to the Town of Drayton Valley and the Village of Breton.
