

Eco-Business in Caledon

The Town of Caledon has partnered with Partners in Project Green to provide companies in the community with access to programming to help them identify ways to improve their financial and environmental performance.

A retention pond at Husky's Bolton campus collects surface water runoff and provides a refuge for local wildlife.

Eco-Business in Caledon

Delivered by Toronto and Region Conservation Authority, Partners in Project Green is a public-private partnership that is jointly funded by the Region of Peel and private sector partners to work with businesses on reducing their costs and embracing sustainable business practices. Through new forms of business to business collaboration, Partners in Project Green delivers programming that helps businesses reduce energy and resource costs, uncover new business opportunities, and address everyday operational challenges in a green and cost effective manner.

Embrace sustainability, visit the Partners in Project Green website to learn more about how you can start reducing costs for your business today!

In addition to the Town of Caledon's Green Development Program, the following are existing program elements from Partners in Project Green that can be leveraged by Caledon's business community.

Energy Performance

Eco-Efficiency Program

A TWO-STEP process puts you on the fast track to project implementation:

- 1) Energy Assessment to identify your best opportunities and incentives, and
- 2) Implementation Assistance where we justify the business case and source vetted service providers.
